- ✓ **Minimize time for content creation and deployment**
- ✓ **Display any content on multiple monitors**
- ✓ **Schedule templates for any time or day**

JUDICIAL SOLUTIONS

LEADER
IN DIGITAL SIGNAGE

Infax's Engage module is a content creation program that allows users to easily create directional signage, personalized messages, and digital directories to be displayed on monitors throughout their facilities. This web-based solution allows users to access the system from any browser on any device, providing maximum flexibility managing one or hundreds of displays remotely or locally.

There are unlimited creative options using the customization features within the module. Courts now have the ability to create content using images, weather, news, local traffic, and short videos. Once the content has been created, it can be uploaded into playlists that show in real time or on a future date.

Engage allows you to choose what content will be displayed on any monitor within the system. It also allows you to choose the schedule in which you would like your messages to be shown. This module focuses on the user experience and functionality, ensuring anyone can create effective and informative visual messages to help direct courthouse patrons.

FEATURES

- UPLOAD PICTURES AND GRAPHICS TO A LIBRARY
- SUPPORTS MULTIPLE MONITOR RESOLUTIONS AND SIZES
- CREATE PLAYLISTS WITH DRAG-AND-DROP INTERFACE
- SCHEDULE DISPLAYS BASED ON TIME OR DAY
- FEATURE LIVE AUTOMATED CONTENT
- CONNECTS WITH OTHER INFAX JUDICIAL MODULES

ABOUT INFAX · For more than 45 years, Infax has been helping patrons navigate public spaces. Our systems provide our clients with capabilities to communicate vital information in real time. With thousands of displays nationwide our solutions have become an integral fixture in the judicial, healthcare, and transportation markets. Infax remains committed to being the most reliable and effective solution for information distribution.
