

# Infax

# JuryCall

JuryCall is an electronic juror information display solution that automates the juror selection process. By integrating with the court's jury management system, JuryCall monitors and displays potential jurors' names and where they are to report. The displays will show the appropriate subset of jurors at each step throughout the jury selection process.

While waiting in the jury assembly area, JuryCall can show a judge's message, live news feeds, or important court information. Patrons waiting in the jury assembly area can view commercial grade displays in the waiting room showing juror name, a judge's message, live news feeds, and other important court information.

## FEATURES

- ✔ Streamlines the jury assembly process
- ✔ Integrates with any jury management system
- ✔ Automates jury management system data
- ✔ Integrated page design
- ✔ Manual operation
- ✔ Name filtering
- ✔ Visual paging and emergency alert capabilities
- ✔ Interacts among multiple facilities

**ABOUT INFAX** · For 50 years, Infax has been helping patrons navigate public spaces. Our systems provide our clients with the capabilities to communicate vital information in real-time. With thousands of displays nationwide, our solutions have become an integral fixture in the judicial, healthcare, and transportation markets and remains committed to being the most reliable and effective solution for information distribution.
