JUDICIAL SOLUTIONS

LEADER IN DIGITAL SIGNAGE

Infax's JailCall solution gives correctional facility personnel the ability to provide up-to-date detainee information electronically. With JailCall, personnel and visitors of the jail are informed of the inmate's bond information, as well as the status of the detainee such as booked, fingerprinted, or ready for bond. This solution seamlessly integrates with any jail management system in order to pull real-time information about the detained.

More than two decades of experience in the judicial industry prove that our products effectively reduce and eliminate questions and confusion in all facilities. JailCall provides information in real time, keeping all parties at the jail informed at any given moment.
